

Here's the front of the building and the arrow points to the keypad on which you type the code to get in.

On the keypad type the code:

10[key symbol]2030

The button circled in red is the 'key symbol'.

Once you have typed the code you should hear a high pitched noise and you can then push the door open.

As you enter the hall the light switch will be on your left, just above the bins, in the direction of the arrow.

To open the building door from inside press the white button on the back of the door.

The apartment is on the first floor and the stairs are on your left as you enter.

The apartment door is on the right on the first floor.

Inside you will find two keys:
the smaller opens the security
gate and the larger the door
