

This is the front of the building. Note the door is between the Easy Hotel on the left and Helvecia pub on the right (the 'a' of 23a looks a lot like a 'b'!)

The arrow points to the keypad on which you type the code to get in.

On the keypad type the code:

**24[key symbol]7090**

The button circled in red is the 'key symbol'.

Once you have typed the code you should hear a click and you can then push the door open.

When you enter the building there will be two buttons on your right.

The first is for the lights

And the second will open the door for going out.

The stairs are straight ahead and the apartment is on the 2nd floor.

The door and security gate will be unlocked.

Attached to the centre pillar of the door you will find a combination lock box

Slide the cover down to reveal the combination numbers
