

This is the front of the building. The door is just to the left of the Ernst gallery and is also an entrance to the Central European University

This is the front door of the building. The outer door will be open and the inner can be unlocked via the keypad just inside to the right.

On the keypad type the code:

13-key symbol-0935

The button circled in red is the 'key symbol'.

Once you have typed the code you should hear a click and you can then push the door open.

Then take the elevator to the 1st floor (note that if you take the stairs there is a 'half-floor' between the ground and first floors)

Turn left when you exit the elevator.

When you enter the building the elevator will be directly ahead. You should take it to the 1st floor. Note that the door will open on the opposite side there and you should push the outer door open and turn left upon exiting.

The door to the apartment is in to the left at the end of the walkway.

The keys are contained in a lock box to the left of the door

Slide the cover down to see the combination numbers

Turn the numbers to read '2008' and pull down the lever to the left

Inside you will find the door key (and there is a second set inside the apartment)
